- Prototyping
- Open-Book Management
- Backlog Prioritization
- Schedule And Time Management
- Solid experience with teams:
Development, Quality Assurance, UX

Interests

- UX [User Experience]
- Mobile
- Testing
- Understanding of projects and goals
- Big-Picture + Small Details
- Photography, Music, Literature

Languages

- NATIVE English
- NATIVE Spanish
- FLUENT Portuguese

Professional Profile

I have an analytical inclination. As a scientific researcher, I did visual sociology on graffiti, compiling pictures with \LaTeX [WYSIWYM], so they look well and are appropriately placed in the text. The UI of the final thesis document was the first step to start thinking about how to progress on product development through a complete cycle.

Recently, in roles in the tech world, I learned to target for market fit, focus on proper scope, attend to User Experience [UX], apply results, measure, iterate, and improve. Understanding the business side of all parties also matters.

Work

- | | |
|-----------|---|
| 2021–2022 | Assistant Project Manager [PREFERATI] |
| | <ul style="list-style-type: none">• Agile sprint planning, backlog grooming, workflow and resolution• Talking with clients, getting requirements, research, strategy• Leading software team projects from planning to deploy, on time• WordPress CMS: wireframing, picture editing, SEO improvement• Implementing CRM improvements and features• Team leader to build an applicant tracking system (ATS) from scratch• Tracking product opportunities, defining MVP and new feature ideas• Company app gamification: user profile, metrics prototyping |
