Dear Benji

I have now received clarification from the insurance office and you are able to take the insurance (which is free for you as a postgrad student).

Details here: <http://www.exeter.ac.uk/research/toolkit/throughout/insurance/>

Since the Committee require this for a range of reasons (including completion of a fieldwork risk assessment) please add a commitment to take it in your revisions as per the original amendments requested.

Please re-send your amended application with this change included.

Thanks and best wishes, Sue

Dear Susan and Ethics committee,

I hope you are doing well.

I am soon presenting my project to the Ethics committee with corrections and would like to check with you.

Since I am living in Argentina and have insurance covered, and additionally there is a public health system, I should not seek any additional coverage.

Could you please confirm/clarify that this is correct?

This way I can present my documentation to the Ethics committee as all covered under own insurance without additions.

Many thanks in advance,

Benjamin Juarez
