

**Awesome People of the Land of
Fivestone**

September 18, 2017

Dear Excellent Board of Reviewers of Coolest Cover Letters,

I'm quite a curious person, and every time I find an interesting pointer, I follow it a long time: and see it to be useful. For some years I've been expanding ways to connect with people and communicate ideas. I've traveled quite a bit, learned Portuguese, and developed content both online and in paper, with several programming languages included.

I've been interested in publishers and design for some years now. By 2005 I became friends with an independent publisher and helped to edit texts for 3-4 years: we reviewed the grammar and spelling of full books. I've also edited and published my own books in an independent fashion.

My profession, Sociology, has kept me travelling to find the opportunity to continue work all about. After attending Graduate School in Buenos Aires (Argentina), I went to Brazil for a Master's degree [at UNICAMP]. Now I am beginning a PhD in Exeter (UK) on the topic of ultra-running. I've learned from and adapted to each of these new environments with pleasure, and expect to do so again given the chance to work at Fivestone.

I also see the big picture. I'd like my work to be fit for the interested audience. I look forward to working with you and hope, within my possibilities, to give the firm my very best.

Sincerely yours,

Benjamin Juarez
