General Profile

I have good adaptability, interest in new areas and the tenacity to give a continuous throttle. I was born in Chicago, USA; and raised from age 7 in Córdoba, Argentina. I have always kept studying English, raising my level to a C1 [CEFR] standard. Also, I use English on a daily basis by reading and writing. I have also learned to read, listen and speak Portuguese in a fluent manner, living in Brazil through 2 nearly years. Programming: mostly self-taught, now taking a course.

Quick view

For six months I worked at *Pearson* Publishing as Learning Services Consultant: I had reunions with teachers, coordinators and directors to understand needs and preferences, and then guide and provide English materials accordingly, also making presentations when needed. Before that I learned some comercial and management skills co-founding and working at our *Juice Bar*.
In the past five years I worked in academic environments: supervising research projects, giving sociology classes and English conversation. In all cases I feel at ease in a environment that relates to publishing, programming and service.
