Professional Profile

I'm drawn to Product Management, UX, Web3 and Non-Profit.

This year I am preparing my System's Analyst Thesis.

In Sociology, I've researched for several years: with ethnography as my primary method, along with using observation and interviews. I handmade a book and a website. Later, it all scaled. The dynamics and results I found in the tech world brought me up here. I want to keep going further this rabbit hole.
